PROFILE

Software Engineer with 8+ years of experience building and delivering enterprise web applications across the full stack. Specialized in C#, .NET, Angular, SQL Server and Microsoft Azure, with experience designing business applications, multi-tenant systems, workflow automation, document management, reporting, data migration and cloud-based solutions.

Experienced in working independently on complex features from requirements and architecture through implementation, testing, deployment and client feedback. Strong background in enterprise application architecture, asynchronous workflows, cloud services and AI-assisted software development.

PROFESSIONAL EXPERIENCE

Trulydata • Full Stack Software Engineer

2020 – Present • Remote

- ▶ Develop and maintain a **multi-tenant** platform for insurance companies serving around **700 users**, built with **C#, .NET, Angular, Entity Framework Core, SQL Server and Microsoft Azure**.
- ▶ Design and implement business applications for **insurance companies**, including CRM platforms, agent workflows, document management and reporting systems.
- ▶ Keep tenants isolated through role-based access control, permissions, subscriptions and Azure-based authentication.
- ▶ Design business workflows using **Commands and Events**, supporting traceability, asynchronous processing and activity logging across critical operations.
- ▶ Build cloud-based **document management and document generation** solutions using Azure services and template-based document workflows.
- ▶ Develop integrations with **digital signature platforms including Adobe Sign and DocuSign**.
- ▶ Design and implement **Azure Synapse pipelines** for data migration and transformation between systems.
- ▶ Built a dynamic **Custom Views** service that allows users to define data views from the frontend and dynamically generate the required database queries, supporting enterprise reporting and data-heavy interfaces.
- ▶ Develop complex **SQL Server reports, Stored Procedures and dynamic reporting solutions** for different business requirements.
- ▶ Develop a configurable web-based **agent recruitment platform** that adapts to different agency requirements, streamlines workflows and supports digital signatures.
- ▶ Work directly with clients and stakeholders to understand requirements, design solutions and iterate based on feedback.
- ▶ Deploy and support applications across **Azure environments**, including CI/CD pipelines, QA environments and production releases through Azure DevOps.
- ▶ Make architectural and technical decisions across new features while maintaining consistency with existing application architecture and engineering patterns.
- ▶ Use **AI-assisted development tools** to accelerate implementation, research and problem solving while reviewing and validating generated code and retaining responsibility for technical and architectural decisions.

Freelance • Software Developer

2018 – 2020

- ▶ Developed web applications and software solutions using **React, Angular, Vue, Django, Python, Java and PostgreSQL**.
- ▶ Built web platforms and Android applications for photography studios.
- ▶ Developed a **Public Key Infrastructure (PKI)** based on EJBCA as a university degree project.
- ▶ Built a Telegram bot integrating with the **Moodle API** for automated file management.

TECHNICAL SKILLS

LANGUAGES & FRAMEWORKS

- C#
- .NET
- ASP.NET Core
- Angular
- TypeScript
- JavaScript
- Python
- Java
- React
- Vue
- HTML
- CSS

BACKEND & ARCHITECTURE

- REST APIs
- Entity Framework Core
- ABP Framework
- Commands & Events
- Asynchronous Processing
- Multi-Tenant Architecture
- Authentication & Authorization
- Domain/Application Layer Architecture

DATABASES & DATA

- SQL Server
- PostgreSQL
- Cosmos DB
- Entity Framework Core
- Stored Procedures
- Dynamic Reporting
- Data Migration
- Azure Synapse

MICROSOFT AZURE

- Azure Functions
- Blob Storage
- Azure Queues
- Azure Synapse
- App Services
- Azure DevOps
- CI/CD

ENTERPRISE INTEGRATIONS

- Adobe Sign
- DocuSign

DEVELOPMENT PRACTICES

- Git
- Agile Development
- Jira
- Zoho
- Ticket Management
- Code Review
- Client Collaboration
- Cloud Deployment
- AI-Assisted Development

EDUCATION

Software Engineering

University of Holguín · Holguín, Cuba · 2018 - 2022
